REMEDIAL AND TUTORIAL CLASSES

Tutorial courses are introduced mainly to develop better understanding and relationship between the students and Teachers. The classes are included in the college routine and a regular watch over the progress is conducted.

Residential classes are basically for slow learner to strengthen their academic knowledge and prepare them for their failure in the examination. These classes are included in the college routine and are conducted without disturbing the regular classes. Model question papers are solved and necessary materials provided. The academic council of the college monitors these tutorial and remedial classes with the help of the department.
